## Dear colleagues!

The Conference Organizing Committee invites you to participate in VII All-Russian Conference with international participation "Mountain Ecosystems and their Components" in **September 15-20, 2019** in Nalchik under the aegis of Tembotov Institute of Ecology of Mountain Territories and Berbekov Kabardino-Balkar State University.

The scientific workshop "Distance methods of studies on mountain ecosystems" devoted to Professor Puzachenko Yu.G., will be held for young scientists within the conference. "School on soil zoology for young scientists" is in **September, 20-25, 2019**.

### Scientific trends of the Conference are as follows:

- biodiversity under mountain conditions (regularities of its formation, species and population diversity, spatio-temporal dynamics);
- ecology and evolution of organisms and communities under mountain conditions;
- scientific fundamentals of environmentally balanced nature management and nature resources conservation;
- invasion problems of alien organisms as resistance basis to technogenic and biogenic threats of the society;
- ecological education as an element in activity of social organizations in the current period of global development.
